Siphesihle Mkhize

<u>Diploma In Information and Communication Technology Applications Development.</u>

Dear Sir/Madam

As a student I have been fully involved in my school community duties, which has allowed me to develop and grasp strong interpersonal skills. I have been in involved in community engagement projects which has allowed me to work hand in hand with my peers while supporting the school community. These engagements have given me an opportunity to develop strong and precise time management skills and organizational skills, which I take them in regard to being important when seeking to work in casual employment while continuing to study.

Personal attributes that I believe make me suitable for being part of your company's team: Participation in community engagement projects and school results demonstrate high motivation. Being part of community engagement projects and fulfilling all the tasks given to me has made me realize that I am able to manage time and get done with my work. I am aware that your company receives many applications, but I would appreciate the opportunity to showcase my capabilities.

I believe that I have a lot to offer your company, I am keen to achieve and develop my professional skills and look forward to discussing my application with you at an interview. I have provided a copy of my resume for your consideration. I can be contacted at **Contact No: 076 472 7893**, 22115305@dut4life.ac.za or **sphesihle.mkhize0610@gmail.com**.

Thank you for your consideration.

Yours Sincerely

Siphesihle Mkhize
